

WINE STOPPER

The Grand Cru wine stopper means no more forcing the old cork back in the bottle!

Place the wine stopper in the bottle, press lightly and the weight of the stopper will seal the bottle airtight.

- ✓ The Grand Cru wine stopper is a cone shape that will seal most bottles effectively.
- ✓ The weight of the steel top and the flexible rubber are perfectly matched to produce an airtight seal every time.
- ✓ The wine stopper is also a perfect fit for both the Grand Cru serving carafe and the small carafes.
- ✓ The design of the wine stopper complements other items in the Grand Cru range.
- ✓ The wine stopper is pleasant to the touch with its' cool steel and black rubber contrast.

The Grand Cru wine stopper is made from dense matt polished stainless steel and black rubber. (All materials are food and drinks compatible.)

Description: Wine stopper

Design: Erik Bagger

Art.no.: 5030

Length: 9 cm
